

MD SADAB MANJAR

SOFTWARE ENGINEER

+91 9142692038 mdsadabmanjar786@gmail.com <https://www.linkedin.com/in/md-sadab-manjar/>

SUMMARY

Computer Science Engineering student with hands-on experience in Angular, Ionic, Capacitor, API testing, and healthcare application development. Skilled in building web and mobile applications, integrating BLE devices, and developing scalable solutions through real-world industry projects.

EXPERIENCE

Software Engineer Intern

RemotePhysios

📅 02/2026 - Present

- Developed healthcare web and mobile applications using Angular, Ionic, and Capacitor.
- Converted a healthcare web platform into Android and iOS mobile applications.
- Integrated BLE-based medical devices (SPO2 and TENS) and designed device control workflows.
- Built API documentation and bug-tracking dashboards using Google Apps Script.
- Performed API testing, bug analysis, feature development, and technical documentation.
- Generated Android/iOS mobile application builds and generated production-ready APK/AAB packages.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering)

Rabindranath Tagore University

📅 08/2024 - Present 📍 Bhopal

CERTIFICATIONS

- Junior Cybersecurity Analyst - Cisco Networking Academy
- Power BI Workshop – Microsoft Learn

KEY ACHIEVEMENTS

- 2nd Position – Internal Hackathon (Smart India Hackathon Qualifier)
- 2nd Position – AI Hackathon

SKILLS

Languages

C++, JavaScript, TypeScript

Frontend

Angular, Ionic, React, HTML, CSS

Backend & Database

Node.js, Express.js, REST APIs, MongoDB

Tools & Platforms

Git, GitHub, Postman, Capacitor, Google Apps Script

Concepts

API Testing, BLE/IoT Integration, Technical Documentation

PROJECTS

College Navigation System

📅 01/2026 - 02/2026

🔗 <https://nav-rntu.vercel.app>

Campus navigation platform for improving student accessibility and route discovery.

- Built a full-stack web application to help students navigate campus locations
- Developed responsive frontend using React
- Integrated authentication, environment variable management, and deployment handling

Faculty Professional Dashboard

🔗 <https://rntu-fdp-100.vercel.app/>

- Developed modules for FDP planning and achievement tracking.
- Built professional portfolio and career progression features.
- Designed interactive dashboard for faculty development.

API Documentation & Bug Tracking Dashboard

Centralized dashboard for API documentation and bug management.

- Integrated Google Sheets using Apps Scripts automation.
- Enabled API and bug creation/editing workflows.
- Automated documentation and bug management workflows.
